CST-150 Programming in C# 1

Week 6 / Activity 14

08/14/2022

Assessment Description

Refer to “Activity 14 Example” and write a Windows Forms program that uses radio buttons, check boxes, and list boxes. Your program may do anything you wish, but should demonstrate appropriate use of each of the controls.

Submit all of your .cs files in your GIT repository with the comment “CST150_OC2.” Submit a zipped folder with all of your project files in the LMS and include a screenshot of your program running with successful output.
